

Humanitarian Project

Distribution of essentials to the flood victims

In collaboration with **AAKASH GREEN** and
THILANKA HOTELS AND RESORTS.

The core message

- Our future lies in our identity as a multi-religious, multi-ethnic nation that recognizes the right of all communities to exist in peace and harmony.
- We are a lucky as we accept diversity. We need to give each other the space to grow, to be ourselves, to exercise our diversity. We need to give each other space so that we may both give and receive such beautiful things as ideas, openness, dignity, joy and healing.
- During this critical time as a company (Aakash green and Thilanka hotels and resorts) we have to be extremely responsible for the staff and each and everyone who is involved in this project.
- We were able to do this project successfully in the midst of so many obstacles such as curfew, Covid 19 pandemic, Criticism and much more.
- But we compromised all these enclosures to meet our end goal, which is to extend our helping hand to the needy.
