

"Today, everyone is 20/24."

Did you know that today, a rare and unique event is happening? The entire world is sharing the same age, a phenomenon that only occurs once every one thousand (1,000) years.

Your age + Your year of birth, everyone = 2024.
It is so strange that even experts cannot explain it!

Why not join in and verify for yourself that it's 2024?

I have been waiting for thousands of years!

Example:

My age is 37.

I was born in the year 1987.

So $37 + 1987 = 2024$.

Use your age this year.

Example:

I was born in 1951 and I am 73 years old.

$1951 + 73 = 2024$.
